rethink what's possible®

MATISSE™ TICRO™

ANTERIOR CERVICAL INTERBODY SYSTEM

The MATISSE™ TiCro™ ACIF Cage system is engineered to accommodate a wide range of patient anatomies and surgeon preferences and is available in various footprints, heights and lordotic angles.

Large graft window allows for *maximum graft volume and greater likelihood of fusion*

Tapered leading edge for *ease of insertion*

Design that *accommodates various patient anatomies and resists migration*

Titanium construction *promotes adhesion*

CTL America's patented TiCro™ design offers up to *200% greater surface area*, improving endplate contact.

This unique surface geometry *enhances bone interlocking properties and helps to ensure cage placement.*
